 DESIGN

The Westcoast Windows Design series has been developed with contemporary architecture in mind, with a deeper glass unit to create a minimal step between outer glass and frame for maximum light, a flush finish and elegant lines.

The Design series contemporary composite windows and doors are available in a wide range of fixed windows, open out windows, open out doors and sliding doors and offer a U-value of 1.0 W/m²k for opening and 0.9 W/m²k for fixed windows.
