

SELF BUILD NORWICH, NORFOLK

CLASSIC

WESTCOAST WINDOWS SWEDISH COMPOSITE WINDOWS WERE THE PERFECT GLAZING SOLUTION FOR THIS ARCHITECT'S SELF-BUILD IN NORWICH

Westcoast Windows supplied their triple-glazed composite windows for a self-build project in Norwich. A retired architect and his wife decided to build a home for their future and set about demolishing an old bungalow to build a future-proof home for their retirement.

Being an architect by profession, the customer worked closely on the build, completing the design and drawings, project managing and sourcing the materials. The couple opted for a timber frame construction and were keen to create an eco home, sourcing materials locally and as environmentally friendly as possible.

WINDOWS FOR A FUTURE PROOF HOME

BRINGING NATURAL LIGHT INTO THE HOME

Energy efficiency was a key part of the design process and the customer chose Westcoast Windows triple-glazed Classic series for their excellent U-values and thermal insulation properties.

The property achieves good airtightness with testing showing a leakage rate of 2.7m³/hr/m². Minimising draughts and maximising insulation helps to create a comfortable, cost-effective living environment.

The large glazing area in the atrium using Westcoast composite windows takes advantage of the low winter sunshine to naturally warm the open-plan living area and brings natural light into the home.

The low maintenance aluminium exterior of the windows is finished in the stylish dark grey RAL 7016 and the interior in clear lacquer to fully appreciate the warmth of the wood.

The Westcoast Windows Classic series is a unique design manufactured with aluminium profiles and high density, slow grown, knot-free laminated timber, sourced from sustainable forests. With an elegant design and modern function, it's easy to see why this is our most popular range.

The Classic series is available in inward and outward opening windows and doors, and sliding doors, in 28mm double and 36mm triple glazing. Take a look at the full range: www.westcoastwindows.com/windows-doors/classic/
