

WILD ACRES NORFOLK

WESTCOAST WINDOWS SUPPLIED SWEDISH COMPOSITE WINDOWS FOR THIS CONTEMPORARY AWARD-WINNING NEW BUILD IN NORFOLK

Westcoast Windows were pleased to supply their windows and doors for this prestigious award-winning new build project, working with Norfolk Pro Build as the main contractors and project architects Chaplin Farrant.

The project involved the demolition of a bungalow and the clever re-siting and building of a new four bedroom home, using contemporary architecture.

The building is a curved design, featuring copper roof panels and rain water guttering, with external walls clad in a combination of copper paneling, lime render and larch boarding.

PRESTIGIOUS AWARD-WINNING NEW BUILD

WILD ACRES

NORFOLK

DESIGN

COMPOSITE WINDOWS FOR MAXIMUM LIGHT AND ELEGANT LINES

Westcoast Windows' Design series triple-glazed composite windows and doors are the obvious choice for a contemporary new build, offering a deeper glass unit creating a minimal step between outer glass and frame for maximum light, a flush finish and simple, elegant lines. For this project the low maintenance aluminium exterior was finished in stylish graphite grey RAL 7016 (30% gloss) and the warm wood interior finished in American White Oak with a clear lacquer to complete the look.

Wild Acres has been awarded the Graham Allen Award 2017 for its contribution to the built environment in the Norfolk North District.

It was praised by judges for its intelligent reaction to site context, topography and landscape setting; visual interest portrayed by the curved form; low lying position and shallow pitch ensuring a discreet presence; and sustainable technology including ground source heating.

It also won the People's Choice Award, which is determined by public vote during the Greenbuild weekend – NNDC's annual green lifestyle event held in September at Felbrigg Hall.

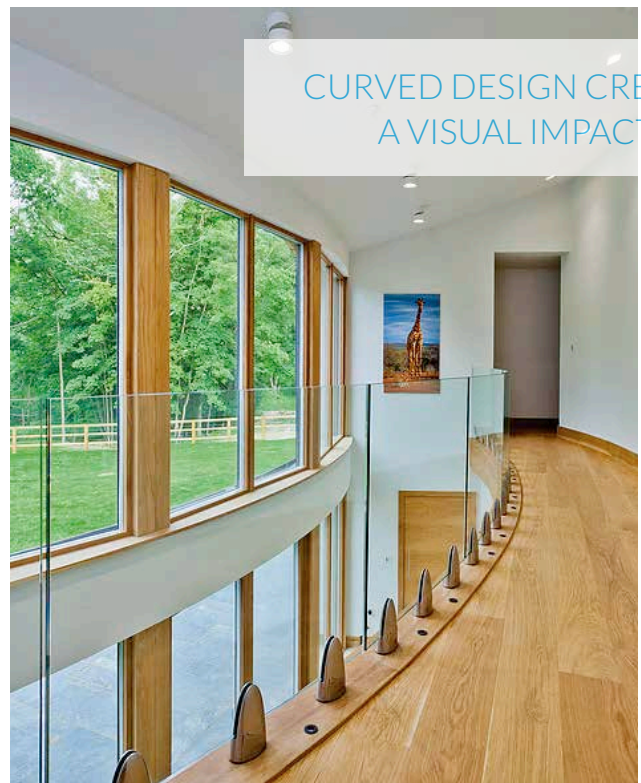

At the Design & Craftsmanship Awards 2017 Norfolk Association of Architects awarded the President's Commendation to Wild Acres for its "Excellent level of Design and Craftsmanship".
